GENERAL INJURY NOTICE

If a player sustains an injury, ensure appropriate medical follow-up and inform your Club - particularly for long-term injuries.

SUSPECTED CONCUSSION NOTICE

If a concussion is suspected, a medical assessment is mandatory.

Return-to-play clearance must be provided by a qualified healthcare professional.

FOR NEXT STEPS & INJURY SUPPORT INFORMATION → SEE PAGE 2

HURT EDUCATION HUB

HURT'S Education Hub helps players & families understand what to do next after an injury by providing clear pathways to support safe recovery and informed return-to-play decisions.

HURT PARTNER SUPPORT PATHWAYS

To assist families following a suspected concussion, HURT connects you with trusted support options:

Medical Assessment (via video):

Connect with an concussion-trained GP in as little as 15 minutes.

Book: www.concussionhotline.com.au.

Baseline Testing & Concussion Monitoring:

Access free baseline testing and monitor ongoing symptoms post suspected concussion and recovery progression through the **Concussion Tracker** from Complete Concussions.

Smart Impact Monitoring Technology:

Use a smart protective wearable like **HIT.IQ Protect Mouthguard**, to monitor head impacts, with data integrated into the HURT portal.

Concussion Guidelines:

For more information refer to the **AIS Concussion Guidelines for Youth & Community Sport**.
